Let's make "going to the beach" a little less painful –

For the 2022 season, we will start to take on the monumental task of repairing our bunker system. This is something that is long overdue. We know how much work they need, and we have so appreciated your understanding as we have worked to improve other areas of the course first. It is with much excitement that we make this commitment, as it is the topic we are most frequently asked about.

This project is one reason that we have decided not to apply any rate increases for the upcoming season. Instead of raising our rates, we thought it best to raise money for a worthy cause. We have already pledged to this project, and we are willing to commit even more. We will be asking for voluntary donations to this fund in any amount you are willing to give. Each dollar that is pledged by our golfers, will receive an additional match from us at the Clubhouse! We are accepting donations in the form of check (may be added to your season pass amount), credit card, and cash.

We have a deep appreciation for all of you that have been season pass holders with us, and all of those that call Battle Ground Golf Club your home for golf.

If you have any questions about the season passes, or with this special endeavor, please do not hesitate to ask!

Regards,

The Battle Ground Golf Club Staff
