

Greetings Players!

To mix things up a bit, on three league nights this season we're doing team play formats, and, as can be expected, that will require a bit different scoring. The playing format for each week will be different; however, the scoring model for each week will be the same.

Scoring:

Participating in a "Team Play" event will unconditionally net each player *2 points* for the week. This gives you an incentive to come and try something new. Winning the match will net each player on that team an additional *2 points*. And the remaining *6 points will come from winning holes* divided into sets of three. (For example, if Team A wins holes 1-3, each player will receive 2 points. If Team B wins holes 4-6, then they will receive 2 points. And if the teams tie on 7-9, each player will receive 1 point.)

To keep things balanced, we will use a percentage of the teams combined handicap and the percentage will vary based on the game. For scrambles 50% team handicap and greensomes 25% handicap. So, for a scramble, if Team A has a 4 hcp and a 12 hcp, then their "team handicap" will be 4. I will have cards marked in advance on these nights with these "team handicaps." (And yes, we have a plan for matches where individual players or entire teams fail to show.)

The formats themselves will be a mix of 2 player scramble (best ball), "Four Ball," and "Greensomes" (aka "Texas Best Ball").

We're excited to mix things up and hope you enjoy what we've come up with! The first "Team Night" will be 6/20 and we will also do them on 7/18 and 8/22. **The weeks before team night events there will be a sign-up sheet these will help me better organize the events.**
